PROJECTS

Capstone Project | Uniswap Web App

Jan. 2026 - May 2026

- Developed an official web application called UNISWAP: A marketplace for college students living on campus to sell their items to other students at a specific school with required credential validation. Utilizing HTML, CSS, JS, React, PostgreSQL, and more.

Sophomore Project | Weather App

Sep. 2024 - Dec. 2024

- Developed a Java-based weather app with a user-friendly interface that displays real-time weather data and location-based alerts, leveraging APIs to provide accurate temperature, humidity, and forecast updates.

Other Course and Personal Projects

Sep. 2022 - Current

- **Full-stack personal portfolio website about me, utilizing HTML, CSS, JS, Supabase, SQL, Git, and more.**
- Java banking application that can instantly deposit, transfer, and withdraw money.
- TicTacToe program in C that allows you to play TicTacToe with AI players of multiple difficulties.
- Caregiver app that helps notify users of any health-related tasks, utilizing Python 3, tkinter, and more

EXPERIENCE

Loan Partner

Apr. 2026 - May 2026

Nations Mortgage LLC | Troy, MI

- Support mortgage operations through documentation management, workflow coordination, and client communication
- Utilize CRM and internal systems to track loan applications and maintain accurate financial records
- Coordinate with underwriters, processors, and clients to improve efficiency and timely completion of loan requirements
- Developed organizational, analytical, and customer-focused problem-solving skills

Bard Discoverer/End User Tester

May 2023 - Aug. 2023

C Space Corp | Remote

- Reviewed Bard (Google's AI tool) specifications to pinpoint potential design flaws.
- Completed weekly validation testing on Bard by using the tool as an average user and submitting detailed reports on functionality.
- Collaborated with a group of testers to share feedback on UI defects and usability.

Sales Associate

Jul. 2022 - Dec. 2022

AEO Inc | Village of Rochester Hills

- Adapted to changing priorities and unexpected situations with calm demeanor.
- Helped customers navigate store, complete sales, and process returns.
- Demonstrated selling experience in fast-paced, service-oriented retail setting.
